DataRobot

# DATAROBOT AI POLICY – ETHICS AND USE

This AI Policy ("**Policy**") sets forth the ethics and usage requirements by which Customers, Authorised Users, free-trial users and all other users ("**Users**") must abide during their use of the Solution, Evaluation Software and any Third Party Products ("**AI Products**"). The terms and conditions set forth in this Policy may be updated from time to time to reflect the changing landscape of AI regulations, Third Party Product restrictions and other acceptable use considerations.

Unless otherwise defined herein, all capitalized terms have the meaning given to them in (i) for Customers and Authorized Users, the DataRobot Master Subscription Agreement or superseding executed customer agreement, or (ii) for trial and other users, either the standard Evaluation Terms of Service or signed Evaluation Agreement, as applicable.

## 1. Responsible Development and Use

Responsible development and deployment of AI should include implementation of risk and governance frameworks. Such frameworks should include periodic impact assessments and promote transparency, equity and explainability. DataRobot encourages Users to adopt appropriate AI ethics principles and frameworks or develop their own to guide their AI lifecycle process.

## 2. Restricted Activities

Illegal and Harmful Activities: AI Products must not be utilized for the promotion of violence, terrorism, child sexual exploitation, abuse of any individual or group, or illegal activity. This includes a prohibition on uploading data containing sexually explicit material, content promoting self-harm, and material that incites hate or discrimination based on protected characteristics like race, gender, or religion.

Fraudulent Practices: AI Products must not be utilized for any fraudulent activities, including generation of malware, phishing scams or other deceptive schemes.

Violation of Personal Rights: AI Products must not be utilized to violate individuals' privacy rights, track or monitor individuals in an unauthorized way or otherwise infringe upon individuals' personal rights.

Other Prohibited AI Practices: AI Products must not be used for any of the prohibited AI practices set forth the in Art. 5 of Regulation (EU) 2024/1689, including without limitation:

- manipulating a human being's decisions or exploit their vulnerabilities;
- evaluating or classifying human beings based on their social behavior or their personal traits;
- predicting a human being's risk of committing a crime;
- scraping facial images from the internet, CCTV footage, or comparable sources;
- inferring emotions in the workplace or educational institutions; or
- categorizing human beings based on their biometric data.

## 3. Third Party Product Terms Restrictions

If utilizing a Third Party Product, Users are also subject to the specific terms and restrictions regarding use set forth by the applicable third party provider, as though they were utilizing the product or service directly from such provider. Such terms and restrictions include but are not limited to those aggregated below. DataRobot is a component supplier pursuant to Art. 25(4) of Regulation (EU) 2024/1689.

**4. Features with Embedded AI (SaaS only)**

(a) This Section 4 applies only to the SaaS version of the Solution.

(b) The following features (each, a "**Features with Embedded AI**") of the Solution may be made available to Customer and may contain the embedded LLMs specified in the table below (each, an "**Embedded AI**").

- **Agentic Assist**
- **Agent Memory LLM**

(c) DataRobot shall not use any Customer Content to train, re-train, or fine-tune Embedded AI for use by any third party (other than Customer's Authorized Users).

(d) Customer shall not, and shall procure that Authorized Users do not, use the Solution, including any Features with Embedded AI and any Embedded AI, for any high-risk use cases pursuant to Annex III of Regulation (EU) 2024/1689.

(e) Embedded AI is subject to availability, and is not subject to any warranties, "uptime" or availability commitments that are set forth in the Agreement for the Solution.

(f) If utilizing Features with Embedded AI for:

(i) Agentic Assist, Users are also subject to the specific terms and restrictions regarding use set forth by the applicable third-party provider of the Embedded AI, as though they were utilizing the product or service directly from such provider. Such terms and restrictions include but are not limited to those aggregated below:

| Provider | Embedded AI | Terms and Restrictions |

**5. Features with Embedded AI (Self-Managed only)**

(a) This Section 5 applies only to the Self-Managed (on-premise) version of the Solution.

(b) The following features (each, a "**Feature for BYO-LLM**") of the Solution may be made available to Customer and may enable to the Customer configure this Feature for BYO-LLM such that Customer can utilize LLMs that were separately obtained or licensed by Customer from the respective provider ("**Bring Your Own LLM**") in the course of Customer's use of the respective feature ("**Embedded Use of Bring Your Own LLM**"), in which case the terms and restrictions between the Customer and the provider of each such Bring Your Own LLM shall apply, and Customer shall be responsible for its adherence to those terms and restrictions:

- **Agentic Assist**
- **Agent Memory LLM**

(c) Customer acknowledges that the Embedded Use of Bring Your Own LLM may cause consumption costs for Customer under the Customer's relationship with the respective provider of the Bring Your Own LLM.

(d) Regarding the Feature for BYO-LLM DataRobot is a component supplier pursuant to Art.25(5) of Regulation (EU) 2024/1689.
